 Key: G#m..organ and effects/bass

-----  
 G#m / E / G#m / E / C#m.....(bass/keybd)

-----  
                                   E          F#  
 These mist covered mountains  
                                   B      Bsus4  B  
 Are home now for me  
                   D#m(A)          G#m          D#m  
 But my home is the low lands  
                                   E          F#sus4  F#  
 And always will be  
                                   G#m          D#m  
 Someday you'll return to  
                                   E          C#m7      F#sus4  
 Your valley and your farms  
                                   F#          G#m  
 And you'll no longer burn  
                                   E          F#sus4  F#  
 To brothers in arms

 G: G#m / E / G#m / E

       G#m

-----  
                                   D#m(A)      E          F#  
 Through these fields of destruction  
                                   B      Bsus4  B  
 Baptisms of fire  
                   D#m(A)          G#m          D#m  
 I've watched all your suffering  
                                   E          F#sus4  F#  
 As the battles raged higher  
                                   G#m          D#m  
 And though they did hurt me so bad  
                                   E          C#m          F#sus4  
 In the fear and alarm  
                   F#          G#m  
 You did not desert me  
                                   E          F#  
 My brothers in arms

-----  
                   G#m          F#                  G#m          F#  
 There's so many different worlds  
                   B                  E  
 So many different suns  
                   F#                  G#m          F#  
 And we have just one world  
                   B                  E          E  
 But we live in different ones

 G: G#m / E / C#m / E / G#m / E / C#m / C#m -E-F#/ G#m sus2 etc

-----  
                                   D#m(A)      E          F#  
 Now the sun's gone to hell  
                                   B      Bsus4  B  
 And the moon's riding high  
                   D#m(A)          G#m          D#m  
 Let me bid your farewell  
                                   E  
 Everyman has to die

G#m            D#m

But its written in the starlight

E       C#m       F#sus4

ANd every line on your palm

F#                    G#m

We're fools to make war

...make war on our brothers in arms

What follows is only a part of the ending. It ends up at about 6'15".

(right before the fade out).

Some parts are really just guesses (actually, the whole thing is, but I really wouldn't be suprised at all if anyone would come up and tell me these parts are totally wrong). I underlined them with "?".
