1. Since you left me, my life

2. See additional lyrics
ain't been the same.
I'm useless without your love.

I'm calling, crying out your name.
But when I

look around.
your love's nowhere to be found.

Please come back to me.
You know you're my
ev - ry - thing... Who will love me? Who will care?

Who will be there when I need... some-one for me? Who will be there to dry my

eyes when I go down on my knees? I need you to say, wherever you go...

**Chorus:**

wherever you do, you know I'm waiting, you know I'll nev...
er leave. Whatever it takes, whatever's at stake, just know I love... you, and know I'll be right here. And no matter what it takes... I'll be waiting here for you, always... you. You know I'll be right here.

All my life I've waited for someone like you,

so please don't say it's over. Don't tell me. This just

can't be true.

Please, don't leave me;

B(9)/D4

don't walk away. You know your love is something I can't do without.
So whatever it takes, or how my heart aches,
you know I'll always be around. Wherever you go.

Verse 2:
Goodbye is such a hard thing to say
When you're wrong, I know,
When you're my everything.
And who will stay and care for me?
When you're gone, I'll be all alone.
Who will come and comfort me
And fulfill my needs?
Who will love me?
Who will care?
Who will be there
When I need someone for me?
Who will be there
When I go down on my knees?
I need you to say...
