## Finger Numbering

In keyboard playing, the fingers are numbered starting with the thumb as 1 through to the little finger 5, as shown below.

Put your thumb on middle C and let your other fingers rest on the four keys in succession above it. You will be in one 5-note hand position spanning C through G, as shown below.

Now, locate these five notes--C through G--by finding them on the [virtual keyboard](#), and then play them on your piano keyboard. Slightly curve each fingertip, and think of striking and grabbing each key with an inward tug towards the center of your hand. Watch this animation to get a feel for the movement.

Your thumb, of course, is hinged differently, so it will strike the key on its side. Again, watch the animation to get a feel for the movement.
