

CREATING DOMINANT SOUNDS

When you're improvising over a dominant seventh chord, you can color your lines using the same basic substitution rules as when comping. Instead of playing from the Mixolydian mode and using dominant seventh arpeggios, try inserting dominant 9th, 11th, and 13th arpeggios to give your lines additional harmonic spice while maintaining the Mixolydian foundation. In the following lesson from *Artful Arpeggios*, author Don Mock provides a few substitution shortcuts to help you achieve more colorful dominant lines. When you finish the four-measure example below, resolve to Cmaj7.

G DOMINANT SCALE (MIXOLYDIAN)

G	A	B	C	D	E	F
1	2/9	3	4/11	5	6/13	b7

DOMINANT 7 CONSTRUCTION

1(G) 3(B) 5(D) B7(F)

Notice we are using arpeggios of chords all resulting from a harmonized C major scale.
G7 = V chord, key of C.
