Recitation 1:
Chaos has descended in "Carandiru," the biggest penitentiary complex in South America. Over a hundred inmates dead and hundreds injured on the massacre. The police arrived with helicopters and over two hundred armed forces.

Recitation 2:
They took jailblock called "Pavilhão Nove" and opened fire on the inmates in a holocaust method of annihilation. The government of the city of São Paulo cannot control the brutality of its police.

Recitation 3:
Over eighty percent of the inmates were not sentenced yet. The bodies were filled with bullets and bites from the police dogs. The police try to hide the massacre, saying there were only eight deaths.

Recitation 4:
The violence of Brasilian cops is very well known outside of Brasil. This kind of extermination is a method that they use to get rid of the overpopulation in the jails. The violence of the cops left the whole pavilion destroyed after the rebellion.
