You're a being of the darkest descent
You don't belong anywhere
You're always hungry, but never content
Ail of your sins, you could never bear
Now you're feeling good
But you're really dead
And you're wearing make up and perfume
In the gallows you were hung
But now I see you walk instead

Razor eater He'll never ever die Razor eater He'll never ever die Well you kept your secrets
And locked them up
Then drained their blood
As you read your books
See the show and drink from your cup
And then hang your darlings
From the hooks
Slice them up, no one will ever know
But still you smell that smell
And now you're dead since long ago
You better burn in hell

Razor eater
He will never die
Razor eater
He will never die

Razor eater Razor eater Razor eater

Rise Up Rise Up

You know I have seen the dark side But evil is not my friend And you know I'll die trying Keep on trying to the end

You know I'm superstitious But the devil never pays My victory is delicious When you fall, fall from grace

My holy sacrifice It's time for me to rise

The demons chained me down It's time to rise

Rise up Rise up Risc

Rise up

I have had my share of fighting But I still could fight some more

> Much better than before What I've been giving all these years

My holy sacrifice It's time for me to rise

The demon's chained me down It's time to rise Risc up

Rise up Rise up No

My holy sacrifice It's time for me to rise The demon's chained me down Now I can see the horizon What I've been giving all these years My blood, sweat and tears I'll carry on forever My blood, my sweat, my tears I'll carry on forever

It's time to rise Rise up Rise up Rise up Rise

Now we're on the journey Back into darker times Can you see the man made mountains They were built for those divine We walk into the twilight In the land of the dead

When the gods walked the earth In the city of a thousand gates They were kings from birth That was their given fate

In the valley of kings Where the echoes still ring On the hot dessert winds In the valley of kings

Their souls that are immortal Within their after life Their soaring through the portal To be eternal light They were ruling without mercy Reigning life on earth

When the gods walked the earth In the city of a thousand gates They were kings from birth That was their given fate

In the valley of kings Where the echoes still ring On the hot dessert winds In the valley of kings

When the gods walked the earth In the city of a thousand gates They were kings from birth That was their given fate

In the valley of kings Where the echoes still ring On the hot dessert winds In the valley of kings

When the rats are bailing out And you are just signing on Then you turned and walked away There is no love lost here, my friend But you have made a great mistake You ate the hook, the sink and bait Now you can't get out It's much too late

The ship of fools keep sailing on The ship of fools keep sailing on And on and on and on

But I can be merciless for sure And you'll sail for many moons I can't believe you lost your mind I'll watch you falling down, again

You have been living in a dream And I can hear the same old theme But nothing's ever what it seems

The ship of fools keep sailing on The ship of fools keep sailing on The ship of fools keep sailing on And on and on and on

The truth is always hard to face Especially when you are in that place, Like the ship of fools

The ship of fools keep sailing on The ship of fools keep sailing on The ship of fools keep sailing on And on and on and on

The ship of fools keep sailing on The ship of fools keep sailing on The ship of fools keep sailing on And on and on and on

Living large, living free Living the life that dreams are made of Dying proud, dying free Dying the death of heroes

But what you've done now Makes me want to cry You keep on pushing Well now you've pushed too far You must die now You must die now

Once we were free Living in perfect harmony It's much too late And now there's no turning back

Attack Attack Attack Out of the blue

Out of the sky The world comes crashing down Now it's out of true We've been blown sky high And the king has lost his crown

Attack We must be fearless And be relentless Attack Attack Kill these insects

Show no mercy You must die now You must die now

Once we were free Living in perfect harmony It's much too late And now there's no turning back Once we were free

Living in perfect harmony Attack It's much too late Attack And now there's no turning back Attack

Alright
Alright
You sacrificed
And worked all your life
But now you're

Bleeding, crying all for nothing Nothing You waiting for that day And you're always praying For the gates To finally open, open Into my stronghold You will never take my Stronghold Yeah

Well you can bring And army's might But I will always fight Until the end, the end You can never break Through my walls

And I'll never fall What's mine I will defend Defend Into my stronghold You will never take my Stronghold And I will show you No mercy

Into my stronghold You will never take my Stronghold Yeah

> Into my stronghold You will never take my Stronghold

Never, Go

Well don't believe

Just don't believe

Into my stronghold

You will never take my stronghold

A single word

Not a word

Yeah,

What you have heard

B C(onE)

Ever since that day
I met you
Well I just knew
You must be mad
But that's okay
Cause I've been thinkin

But that's okay

Cause I've been thinking

And I've had worse

It ain't that bad

But now it has reached

Another level

A lesser man would be scared

And not as the devil We're all the same Breathing air Mad Mad Mad dog

Live as you preach

Mad, mad dog Mad dog Mad, mad dog Now it's too late You're mad Much too late Mad To fix your problem Mad dog Your brain is dead Mad, mad dog

Your brain is dead
You should have tried
To set it straight

Now you missed that boat And that's what I always said

And that's what I always said

Mad, mad dog Mad dog, mad dog

Yeah

Mad dog

Mad

I'm gonna put you down, down

In the name of god
We didn't know for sure
That evil is right outside our door
And now all the bad and ugly
Showing their faces more
So now we have got to work it out
And think with precision
Make sure we make the right decision

In the name of god In the name of god In the name of god

And the truth is for all to see But since we've all been blinded Blinded by evil Now is the time to stand and fight In the name of god In the name of god In the name of god In the name of god

Together we're standing tall Together we will never fall Together we're living free

In the name of god In the name of god In the name of god

Valhalla. Valtalla,
Valtalla
Pick up your sword
Pick up your shield
And get your ass on to the battle field
This hell on earth That you call your life We'll snuff it out And you're gonna die

We come from the north We come from the ice We live dangerously And very short lives We fight day by day We fight day by day
Sailing the seas
We're natural born slayers
We live by the sword
And die by the sword
We're never afraid
And to drink with the gods To be singing their songs
I raise my cup in valhalla
To feast in their halls
And laugh with them all
I raise my cup in valhalla

Valhalla You live by the sword You die by the sword The hammer of Thor Beating you down The thunder crashing Through your door

With the gods by our side We follow the stars As we're sailing into This holy war

We come from the north We come from the ice We live dangerously And very short lives We fight day by day
Sailing the seas
We're natural born slayers

We live by the sword And die by the sword We're never afraid And to drink with the gods
To be singing their songs
I raise my cup in vaihalla
To feast in their halls
And laugh with them all
I raise my cup in valhalla

Valhalla We live by the sword And die by the sword

Valhalia Valhalla Valhalla

We come from the north We come from the ice We live dangerously We live dangerously
And very short lives
We fight day by day
Sailing the seas
We're natural born slayers
We live by the sword
And die by the sword
Ard die by the sword
For every afraid
And to drink with the gods
To be singing their songs
I raise my cup in valhalia
To feast in their balls
And laugh with them all
I raise my cup in valhalia

Can you remember all the times We were rehearsing all the lines Way too high

But still we'd try
We were loosing sleep
But for the cause
Rocking out without a pause
Way too high
Way too high

Then it seemed so cool But it wasn't true And what I was told There were no lies

And now I won't die until I'm old

We were way too high Trying to reach up and touch the sky

Touch the sky
We were way too high
Trying to reach up and touch the sky

But the end would justify

All the lost time that went by Do or die Way too high

Well, I can't believe it's true
And all the things that we would do

Way too high Way too high Then it seemed so cool But it wasn't true

And what I was told There were no lies

And now I won't die until I'm old

We were way too high

Trying to reach up and touch the sky

Touch the sky We were way too high

Trying to reach up and touch the sky

All I was told There were no lies I won't die till I'm old

Trying to reach up and touch the sky We were way too high

Trying to reach up and touch the sky

We were way too high

Trying to reach up and touch the sky

We were way too high

I can't believe you're even trying this And the fact that you don't know what my power is On the battle field all the angels will fall And you can't hide behind your crumbling walls

Evil dreams they try to pull you in But now's the time to pay for all your sins When it's even way too late to repent So maybe your death is just heaven sent

No shackles can hold me down
You can never understand
You'll never take my crown
And all the power in my hands
Forever I shall stay this way
And you'll never take what's mine away

I just love when vengeance tastes so sweet
I just love when you must taste defeat
Now you know you must die by my blade
Soon enough your soul will fade away

It makes me laugh you even took your turn You can't be serious, won't you ever learn I'm the man that you can never take out You've must forgotten what it's all about

Threw caution to the wind
Are you really all that blind
Committing ancient sins
Are you really that behind
We all have a cross to bear
You can seek but never find
Can't you feel the sadness there
Did you loose your mind
Now it seems that way to me
Did you commit those crimes
Open up your eyes and see
Are you really all so blind
No wonder you were left behind again

No shackles can hold me down
You can never understand
You'll never take my crown
And all the power in my hands
Forever I shall stay this way
And you'll never take what's mine away
Did you loose your mind
Now it seems that way to me
Did you commit those crimes
Open up your eyes and to see
Are you really all so blind
Will it ever set me free
No wonder you were left behind again

They always said it couldn't be done There's not a man, living under the sun To pull it off now, baby

Listen I've got news for you

But the way I see it There's no more illusions And I'm going forward now

I'll never give in I'm nobody's fool Look at you know, you're so pathetic I don't know how, you just don't get it

Don't try to be wise You could use some advice

But the way I see it There's no more illusions And I'm going forward now

I'll never give in I'm nobody's fool I'll never give in

I'm nobody's fool

I'll never give in I'm nobody's fool

I'll never give in I'm nobody's fool

I'll never give in Cause I'm nobody's fool
